MODEL №:	0834-RB & 0839-RB
ISSUED:	11 JUN 2020
REVISED:	

3-BIN RECYCLING STATION

SPECIFICATION

3-Bin Recycling Station shall have 18 gage unified top and individual 22 gage bins all of type 304 stainless steel alloy 18-8 with satin finish on exposed surfaces. Capacity of Station is either total 42 gal [159L] or 57 gal [216L] per model as scheduled. Each bin and single top will be shipped in individual boxes and shall be protected during shipment with PVC film easily removable after installation. Receptacles and bin top shall have no exposed fastening devices or spot welded seams. Top shall have shape-coordinated openings and permanent labels "TRASH", "BOTTLES" and "PAPER" affixed for opening identification and shall lift off for easy maintenance. Bottom of each receptacle shall have four (4) non-skid rubber feet.

3-Bin Recycling Station shall be Model № 0834-RB or 0839-RB as manufactured by American Specialties, Inc., 441 Saw Mill River Road, Yonkers, New York 10701-4913

INSTALLATION

3-Bin Recycling Station is free standing and should be placed in appropriate position on finished floor.

OPERATION

Waste material is deposited into the respective receptacle through shape-coded and purpose-labeled top openings. Use of disposable trash liner bags is recommended. The disposal bags are emptied manually on a cycle determined by maintenance needs by removing top and removing bags from top cuff retainer stars.

OPTIONS

3-Bin Recycling Station is available in capacities as scheduled by model number. See Schedule of Availability of each bin for reference.

Schedule of Availability			
Model №	Total Capacity	OA Height	Bin Capacity
0834-RB	42 Gallon [159 L]	24-3/16 [614]	14 Gal [53 L]
0839-RB	57 Gallon [216 L]	31-11/16 [805]	19 Gal [72 L]
