an evolution in style

with products perfectly adapted to meet
the needs of your environment

Seriously stylish

The MVP range is a stylish, contemporary and luxurious range of dispensers designed to complement the most exclusive of establishments.

Vectair Systems are technological innovators in the hygiene world and are renowned for their award-winning systems.

Vectair Systems' most technologically advanced systems make up the MVP range. Within the Vectair MVP range lies the pioneering Vectair V-Air® SOLID multi-phasing air freshener and the VIBE® aircare dispenser with Vibrating Mesh Technology.

Get the look

Fully co-ordinated, the range is available in white, white and chrome, black and black and chrome, made possible by an elegant insert on the front cover. Dispensers can be branded with a customer logo. All dispensers come with effective, durable and long lasting refills.

the natural selection

for innovative hygiene technology

MVP Dispenser Range

Within the Vectair MVP range, choose from an aircare dispenser with Vibrating Mesh Technology, a multi-phasing passive air freshener with sub-micron fragrance technology, a micro and standard automatic air freshener dispenser, a skin & surface care dispenser (manual and touch free) and an automatic hygiene maintenance dispenser.

PRODUCT SUMMARIES

VIBE® Aircare Dispenser with Vibrating Mesh Technology

The patented Vibrating Mesh Technology that goes into VIBE® creates a far more efficient, more environmentally friendly and less expensive aircare system compared to conventional aerosols and passive dispensers.

VIBE® PLUS Aircare Dispenser with Vibrating Mesh Technology

The patented Vibrating Mesh Technology that goes into VIBE® PLUS creates consistent, powerful fragrances for large spaces using a truly cutting edge technique and ultra-smart, programmable aircare dispenser.

Vectair V-Air® SOLID Multi-Phasing Air Freshener with Sub-Micron Fragrance Technology

The award winning and environmentally friendly Vectair V-Air® SOLID utilizes pioneering multi-phasing, sub-micron air freshener technology through a passive dispenser and solid fragrance cartridge.

Vectair Airoma® MVP & Vectair Micro Airoma® MVP Automatic Air Freshener Dispenser

Vectair Airoma® & Vectair Micro Airoma® MVP offer fully programmable automatic air freshener dispensing technology to ensure facilities smell fresh and clean whenever a fragrance is required.

Vectair Sanitex™ MVP Skin & Surface Cleaning Dispensers

The Vectair Sanitex™ MVP manual and touch free dispensers combine a next generation design with luxurious foam soaps and an effective surface cleaner, promoting maximum hygiene leaving hands clean and surfaces safe to use.

Vectair Quadrasan® MVP Automatic Hygiene Maintenance Dispenser

Vectair Quadrasan® MVP is an automatic cleaning and dosing system that provides continuous programmable maintenance ensuring toilet and urinal fixtures remain clean and odor free.

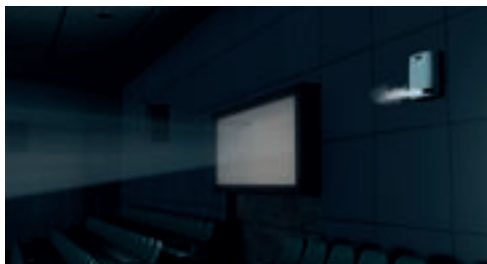

a new generation

brings about a technological transformation

Vibrating Mesh Technology

Vibrating Mesh Technology is where a mesh/membrane, with 2,000 laser drilled holes, vibrates at the bottom of the reservoir, and thereby pressures out a mist of very fine droplets through the holes. VIBE® and VIBE® PLUS aircare dispensers from Vectair Systems are the latest creations and first of their kind to utilize our own patented Vibrating Mesh Technology.

VIBE® Aircare Dispenser with Vibrating Mesh Technology.

VIBE® is an aircare dispenser that utilizes our own patented Vibrating Mesh Technology, giving real green and efficiency benefits whilst also providing a great reason for you to change from your existing system with excellent cost in use benefits. The Vibrating Mesh Technology allows for consistent fragrance from start to finish and is highly effective at ultra low concentrations.

- Unlike heavier aerosol droplets which fall within minutes, the VMT micro particles are much smaller and lighter, remaining airborne for many hours.
- Environmentally safe. Formulation is VOC exempt and contains no propellants or HFCs.
- Fully programmable dispenser; completely unique with patented and patent pending technology.
- Energy efficient. Fragrance and odor neutralizing molecules are produced at low pressure with no heat.
- Superior fragrance delivery for up to 90 days.
- Lower cost in use. One VIBE® cartridge can replace up to three high volume metered aerosol cans OR up to six passive fragrance refills.

VIBE® PLUS Aircare Dispenser with Vibrating Mesh Technology.

The Vibrating Mesh Aircare Technology that goes into our VIBE® PLUS aircare dispenser offers a wholly unique way of controlling odors. Supreme exposure area assists with efficiency requirements – one VIBE® PLUS will dispense fragrance to an area of up to 120,000 cubic feet. Micro fragrance particles remain airborne for many hours for superior fragrance delivery.

- Two 17 fl. oz scent cartridges enable a blend of complementary fragrances from one dispenser.
- Micro fragrance particles remain airborne for many hours for superior fragrance delivery.
- Create different atmospheres allowing the user to set different ambiances with clever programmable features.
- Environmentally safe. Formulation is VOC exempt and contains no propellants or HFCs.
- Battery or mains powered application caters for an HVAC function in air conditioning units for example, or can be simply battery operated.
- One VIBE® PLUS dispenser will dispense fragrance to an area of up to 120,000 cubic feet.
- Fragrances last up to 180 days per one VIBE® PLUS cartridge.
- Remarkable durability and longevity - VIBE® PLUS can be programmed to only require two refills per year.

Nothing, but everything has changed

PLUS

Vectair V-Air® SOLID Multi-Phasing Air Freshener with Sub-Micron Fragrance Technology

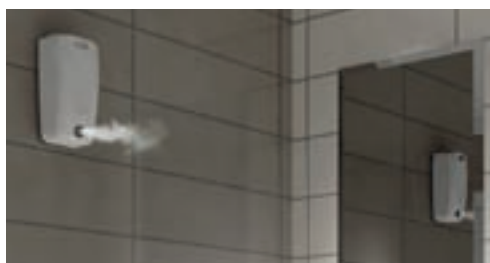

The multi-award winning Vectair V-Air® SOLID is an air freshener like no other. It provides up to 60 days fragrance in a completely environmentally friendly manner, completely free from any solvents, propellants and batteries – categorizing it as one of the safest and smartest air fresheners available. The pioneering multi-phasing fragrances subtly change to avoid fragrance fatigue.

- Requires just natural airflow to operate. Dispenser is designed specifically to allow just natural airflow into contact with the refill. No external power source is needed, such as batteries.
- Different fragrances are used in the center portion (fragrance core) and in the ceramic capsule of the refill allowing for multi-phasing fragrance delivery for up to 60 days.
- Contains no propellants, solvents, HFCs and is VOC exempt. Environmentally friendly odor control system using wholly recyclable materials.
- Completely organic fragrance refill. Vectair V-Air® SOLID is completely biodegradable, with a recyclable Vectair V-Air® SOLID MVP dispenser.
- Uses sub-micron fragrance technology delivering fragrance particles typically below 1.0 micron (<1.0µm) which enables fragrance particles to remain for many hours.
- Non-hazardous and contains no liquids. There are no restrictions on the transporting and usage of either the dispenser or refill.

MVP Aircare Dispensers

Aircare products in the Vectair MVP range push boundaries and offer the newest aircare technologies to find innovative ways of controlling and removing odors in an environmentally friendly manner.

Vectair Airoma® MVP & Vectair Micro Airoma® MVP Automatic Air Freshener Dispenser

Vectair Airoma® & Vectair Micro Airoma® MVP dispensers provide flexible and easy to use programming options, and can be set to match your exact location conditions, automatically delivering small bursts of fragrance at specific intervals in order to keep bad odors at bay. Whether you need a micro or standard sized dispenser, Vectair Airoma® MVP & Vectair Micro Airoma® MVP are an effective way of keeping odors under control.

- Fully programmable dispenser allowing you a choice of number of refills per year; 6, 8, or 12 hour operation; choice of start and end time; days off selection feature; choice of days of operation (5, 6, or 7). Weekend On/Off option also available.
- Patented "I.P.E.™" facility enables users to program one period per day of enhanced fragrance delivery.
- Patented automatic reset button when a fragrance refill is replaced.
- Visible countdown clock showing time until next spray confirms operation of unit and provides health and safety warning.
- Available in a micro or standard sized dispenser and available in white, white/chrome, black or black/chrome to suit customer preferences.
- Variety of long lasting fragrances available that are compliant with all relevant aerosol legislations.

Vectair Quadrasan® MVP Automatic Hygiene Maintenance Dispenser

Vectair Quadrasan® MVP is an automatic cleaning and dosing dispenser system that provides continuous programmable maintenance ensuring toilet and urinal fixtures remain clean and odor free. Through its secure and ultra-modern design, the highly effective Vectair Quadrasan® is designed to work in a variety of locations without disrupting the surrounding environment.

- Fully programmable dispenser allowing you a choice of number of refills per year; 6, 8, or 12 hour operation; choice of start and end time; days off selection feature; choice of days of operation (5, 6, or 7). Weekend On/Off option also available.
- Countdown clock showing time until next dose.
- Patented "I.P.E.™" facility enables users to program enhanced dosing delivery for busier periods.
- Patented automatic reset button when refill is replaced.
- Vectair Quadrasan® refills are available in biological and chemical formats, available without fragrance or with a choice of effective and fresh fragrances.

MVP Restroom Dispensers

Restroom products in the Vectair MVP range enable you to effectively manage, maintain and deodorize your restroom and toilet areas.

Vectair Sanitex™ MVP Skin Care Dispensers

A targeted approach to skin care is the purpose for the Vectair Sanitex™ MVP range. Hands are left clean and hygienic when using the Vectair Sanitex™ MVP soap dispensers. A next generation dispenser design complements a suited range of consumables and provides total lockout of competitor refills, ensuring continuous and repeat refill business.

- Manual or 'touch free' automatic dispenser options available.
- Robust & reliable soap dispensers that are simple to operate and service.
- Promotes maximum hygiene incorporating EPA registered Biomaster® (silver ions) protection which reduces non-pathogenic micro organism growth, preventing product degradation (Manual dispenser only).
- Both the manual and touch free dispenser options come with three soaps; Luxury foam soap, anti-bacterial foam soap and instant hand sanitizer.
- Durable, sealed cartridges ensure optimum hygiene at all times. Delivering the optimum amount of foam soaps, minimizing waste and saving you money.

Vectair Sanitex™ MVP Surface Care Dispensers

A targeted approach to surface care is the purpose for the Vectair Sanitex™ MVP range. Surfaces are left clean and dirt free when using the Vectair Sanitex™ MVP Surface Cleaner Manual Dispensers. A next generation dispenser design complements a suited range of consumables and provides total lockout of competitor refills, ensuring continuous and repeat refill business.

- Designed and developed to leave any hard surface safe for use.
- Promotes maximum hygiene incorporating EPA registered Biomaster® (silver ions) protection which reduces non-pathogenic micro organism growth, preventing product degradation.
- Durable, sealed cartridges ensure optimum hygiene at all times. Delivering the optimum amount of surface cleaner, minimizing waste and saving you money.
- One pump can endure thousands of operations.
- For use on surfaces such as toilet seats, kitchen tops, desks and many more.
- Vectair Sanitex™ MVP Surface Cleaner has been tested to stringent FDA 1994 TFM protocols and offers the versatility needed to clean numerous surfaces effectively.

Other products in the MVP family

Complementing the MVP range of dispensers, the Vectair Femcare™ MVP offers style and safety.

Vectair Femcare™ MVP Sanitary Waste Disposal Unit

The Vectair Femcare™ MVP range of feminine hygiene waste disposal units means that sanitary waste is disposed of safely and responsibly. Each unit is stylish and highly functional, with a resistance to the build up of dirt therefore being easy to clean.

Vectair Femcare™ antimicrobial scented liners are also available to use in conjunction with the Vectair Femcare™ MVP disposal system; the first feminine hygiene waste liner to incorporate Biomaster® silver ion protection and odor eliminating technology.

- Manual (foot pedal) and touch free (automatic) versions available.
- Biomaster® approved antimicrobial additive incorporated into the rotating carousel and the removable tray for added safety in use.
- Innovative revolving modesty flap ensuring waste is completely hidden.
- Removable chute (black) and quick removal lid for easy cleaning.
- Vectair Femcare™ liners with antimicrobial protection are available to use in conjunction with the Vectair Femcare™ MVP disposal systems.
