Wooden Mallet is the leading manufacturer of wooden literature display racks. Built in the United States with the highest quality, domestically sourced materials, our products offer lasting beauty and durability.

Our selection consists of a wide range of office furnishings including: magazine racks, brochure display racks, chart holders, luggage racks, coat racks, reception chairs, sofas and end tables built from solid oak.

Wooden Mallet is a high volume distributor specializing in drop shipping. We promise an industry-leading 24-hour turnaround on most items. Upholstered items ship in just 3 days. Our cutting edge, green manufacturing practices are environmentally friendly. Our lean manufacturing process keeps costs low.

Company History

Jim Kreber started his woodworking career in 1975 creating made-to-order pieces for local customers in Aberdeen, SD. His business eventually grew into what is now Wooden Mallet, manufacturer and wholesale distributor of wooden office and institutional fixtures. Today his son David Kreber has taken over the reins of this family-owned and operated company.

Quality and Customer Service

Wooden Mallet prides itself on fast service. Our lean manufacturing process provides for a backorder rate of almost zero. Once Wooden Mallet receives your order, the products are assembled and drop-shipped directly to your customer via UPS or FedEx. Most items ship within 24 hours, our Dakota Wave furniture collections ship within 3 days. Being centrally located in South Dakota means your customers on both coasts receive products within days. Most products are shipped fully assembled so they can be used within a week of placing the order!

Meanwhile, the quality of the product is never compromised. Wooden Mallet uses solid oak sides and components. This construction provides a durable and solid product. All components are pre-finished before assembly to ensure an even finish in all nooks and crannies, and a better protected product.

Through a constant, vigilant effort by the company's packaging department, Wooden Mallet has virtually

eliminated freight damage. Statistics show that only 1 in 250 Wooden Mallet products are damaged in transit.

Of course, occasionally there are customer concerns that must be addressed. In these instances, Wooden Mallet strives for a quick and simple resolution of the problem.

All the quality and customer service, yet Wooden Mallet products remain very competitively priced. The company continually invests in production technology which helps keep product handling to a minimum, which in turn keeps prices down.

Equipment and Facility

Some of Wooden Mallet's trend-setting technological equipment includes 4 CNC routing machines, and laser engraving machine, and a state-of-the-art finishing system. The routing machines afford a better degree of accuracy as pieces are cut for assembly. The laser engraving machine enables products to be customized with any artwork or logo. The finishing system used by Wooden Mallet is one of the first of its kind in the Midwest. The system uses ultraviolet light to cure the finish; not only is the finish more durable, but the process meets the emission

standards set by the Environment Protection Agency for many years to come.

Awards and Growth

For over 10 years, Wooden Mallet ranked consistently ranked in the top 100 of the Wood & Wood Products, Wood 100 Annual Report for Solid Wood and Panel Technology. In 1993 and 1994, the company ranked 13th in the nation; in 1995

72nd, in 1996 it rose to 18th, and in 1997 rose again to 11th. In 1998, the company ranked 13th, in 1999 25th, 2000 83rd, 2001 60th, and in 2002 Wooden Mallet ranked 93rd nationally. The ranking is figured on the company's percentage growth from the previous year. In fact the annual sales volume of Wooden Mallet grew a massive 1300 percent from 1993 to 2002.

"Excellence in wood products manufacturing is Wooden Mallet's primary goal. To make this possible, we believe in a family of trained and dedicated employees, top quality materials, and the most modern equipment and facilities. With these tools, we can bring to our customers a consistently superior product, prompt ship times, and a smooth running partnership."

Going GREEN

Worried about your carbon footprint? Look to wood products! Wood is 1/2 carbon by weight because trees use solar power to take carbon emissions out of the air and store it in the wood that we

use. Wood products also use less energy to make into finished products than plastics or steel. When you consider all the carbon emitted in processing the wood, the net result is still carbon storage, meaning products made from wood are actually carbon negative.

This carbon advantage only exists if the wood used is grown in sustained forests. This is why Wooden Mallet only uses wood products that are grown in sustained forests in the United States.

At Wooden Mallet we take many steps to assure our facilities are doing everything possible to reduce, reuse and recycle.

- Our wood scraps and wood chips don't make it to the landfill. We use the wood chips as bio-fuel to heat our entire production plant, warehouse space, and offices. We don't use any natural gas or petroleum products for heat.
- We donate our unused scraps to local organizations and individuals to use for heating their facilities. The remainder of our wood chips and sawdust is used by local ranchers for animal bedding.

- We recycle 100% of the cardboard scraps produced from our packaging process which eliminates foam and plastic inserts.
- Wooden Mallet uses a high-tech finishing system and finishes that are waterborne high solids and CFC free. This greatly reduces emissions in the air, is nonflammable, and has no odor.
- All of our MDF, HDF, and other fiberboards meet CARB regulations which use substantially less formaldehyde in their manufacturing process.
- Even our employees breathe better at work due to our high efficiency dust collection system. We are constantly getting praised about how clean our work environment is, **even by OSHA!**

Some people say that GREEN is just a fad that Americans go through whenever we see an increase at the gas pumps. Businesses get all excited about it and say they are going to change their ways. Then, after trying it for a while they just go back to their old ways. They come up with excuses like it is "too expensive", "too hard to find green products", or "too inconvenient".

At Wooden Mallet we don't think GREEN is a fad. Instead of spending our time coming up with reasons not to go green we prefer to come up with ways to go green. For instance, back in the 70's, Jim Kreber (founder of Wooden Mallet) spent his free time building an electric car. Later he designed and built the wood scrap boiler and hot water radiator system to heat the original plant. So, you see, for us **GREEN is a way of life.** At Wooden Mallet, we believe that every step towards GREEN is a step in the right direction

Cascade™ Oak Magazine Racks

Our Cascade™ oak racks neatly display and organize magazines. Wooden Mallet's wall racks are constructed of 3/4" solid oak sides. These magazine racks are sealed with a durable state-of-the-art finish. Magazine rack pockets are 9" wide by 3/4" deep. All wall racks are predrilled and include hardware for easy wall mounting. Floor racks require a screwdriver to attach feet.

NEW! Oak Fishing Rod Racks

Give your prized gear a handsome home with the Wooden Mallet Fishing Rod Rack. This rack will make a great addition to any outdoorsman's favorite room. Protects and organizes 5 rod-and-reel combos in an easily accessible upright position. Accommodates both spinning and baitcasting gear. Angled base plates and sculpted rails keep each rig in place. This convenient design can be used free-standing or mounted to the wall. Rack is made of solid oak with a commercial grade finish. Requires simple screwdriver assembly. Wall-mounting hardware included.

Racks can be used as floor models

Or mounted to the wall

Stance™ Oak & Acrylic Literature Displays

Display literature, brochures, and magazines in our beautiful Stance™ displays. These racks were specifically designed to hold your literature up straight without having the corners of your literature curl over. The combination of clear corner supports and curved and tilted faces keep even light single sheet literature standing straight. The overlapping design allows for more pockets in a smaller space. These displays are constructed with solid oak sides and clear acrylic shelves. Each pocket measures 9" wide. Optional removable inserts are available to use when displaying 4" brochures. The removable dividers give you the versatility to display as many 4" brochures as you need, in which ever location you prefer, and they can easily be changed to adjust for your future needs. All racks include wall mounting hardware.

Privacy Chart Holders

Oak privacy chart racks are **HIPAA COMPLIANT** to keep your patients files handy while keeping their names and records private. These chart holders are constructed with solid oak sides. Front dividers offer a recess to make retrieving files easier. Chart holder pockets are 12 1/2" wide. The three and five pocket chart holders have pockets that are 1 1/4" deep while the single pocket holder is 2" deep. Front dividers cover 9" of the file. All racks are predrilled and include hardware for easy wall mounting.

Wall Desk/Laptop Workstation

The laminated wood grain wall desk is available in Oak and Dark Red Mahogany with a white and wood grain laminate interior. The beautiful and durable contoured “wrap around” laminate covers all surfaces for easy cleaning. Braking slides have been inserted for a soft opening and gives support while not letting the front panel slam down. Magnetic catch ensures that the desk will stay closed when accidentally bumped. All wall desks are constructed with a 5/8” thick front panel and sides. The 21” x 17” writing surface extends to 20 1/4” from the wall when open and supports a distributed weight of 20 lbs. Each desk is outfitted with a useful pocket and pen holder inside. Shallow closed depth means that these desks are ADA compliant when placed in passage ways. These desks can be mounted at chair or standing height, but must be mounted to studs in the wall. Heavy duty mounting hardware is included.

WD17-21
Wall Desk

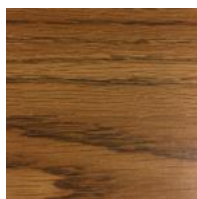

Wall Desk shown closed

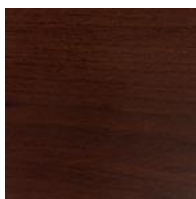

Modern radius edges are smooth and look great. This is not old-fashioned edge banding.

All Wall Desks are available in the following colors:

Oak (OAK)

Oak Business Card Displays

Oak counter top business card holders are an attractive way to display multiple cards in an organized fashion. These displays work well to present business cards in any office setting including: medical offices, dental offices, banks, law firms, or real estate offices. They can also be used in retail stores at point of sale to display gift cards. They are available in three, six, nine, and 12 pocket units. Each pocket is 3 1/2" wide and can hold a stack of cards up to 1/2" thick. All displays are constructed of solid oak and are available in a Light Oak, Medium Oak, and Mahogany finish.

Base and card slots built of solid oak

Our unique design allows cards to sit freely in slots with only side supports

Use these displays at Point of Sale for gift cards, as well.

Solid Oak Coat Racks

Our coat racks are made of solid oak, not veneer or wood grain vinyl coverings. They are available in light oak or mahogany state-of-the-art finish. The sturdy 1"x2" oak hat rack bars are mortised into the sides and locked into place with screws. Choose from a 1" or 5/8" diameter chrome steel hanger bar. Color matched wood plugs are included to cover wall mounting screws. Racks are shipped knocked down and assemble in minutes.

Single Coat Rack (SCR)

- Available in 24", 32", & 36" widths
- 32" designed to install on 16" on-center wall studs.
- 24" & 36" designed to install on 12" on-center wall studs.
- Or install on any wall using heavy duty wall anchors.
- Call to inquire about custom lengths.

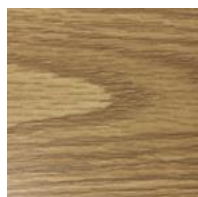

Double Coat Rack (DCR)

- Available in 48", 64", & 72" widths
- 64" designed to install on 16" on-center wall studs.
- 48" & 72" designed to install on 12" on-center wall studs.
- Or install on any wall using heavy duty wall anchors.
- Call to inquire about custom lengths.

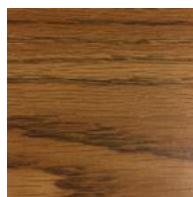

Available in the following state-of-the-art finish colors:

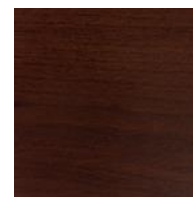

NEW! Black (BK)

Light Oak (LO)

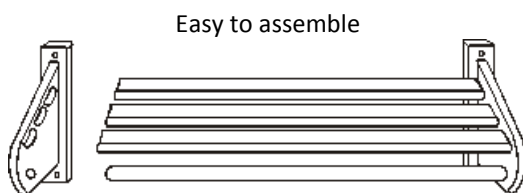

Medium Oak (MO)

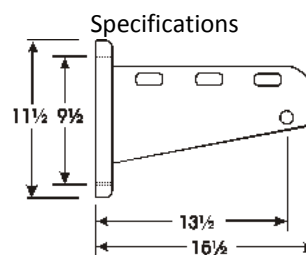

Mahogany (MH)

Colors may vary due to differences in stain lots. Request swatches to make exact color matches.

Easy to assemble

Oak Towel & Tissue Dispensers

Forget using a plain metal dispenser. Wooden Mallet's oak paper towel and glove/tissue dispensers add a touch of beauty and class to your restroom or clinical setting. The tissue/glove box holders will accommodate almost all brands and sizes of gloves. These racks also work well for standard size facial tissue boxes. The towel dispensers will work with both multi-fold and c-fold paper towels. All glove box and towel dispenser cabinets are constructed of 3/4" solid oak sides with 1/4" laminate front panels. The paper towel cabinets have a plastic bottom where the towels are dispensed for easy cleaning. All cabinets are drilled and include wall mounting hardware for easy wall mounting.

Dakota Wave Benches

Stylish, economical, and comfortable, Wooden Mallet's Dakota Wave benches are built to last. They are constructed of one inch thick solid oak with a beautiful, durable, state-of-the-art finish. They are available in three styles of fabric and vinyl, and are California TB 117 compliant. Assembly is a breeze with the use of slide brackets, as no tools are required.

Watercolor Rose (WR)

Watercolor Earth (WE)

Colors may vary due to differences in monitors. Request swatches to make exact color matches.

Coffee & End Tables

Keep your table tops free from the clutter of magazines with Dakota Wave's unique magazine coffee tables and magazine end tables. The magazine coffee table has six double wide pockets to hold twelve or more magazines, while the three sided magazine end table has three double wide pockets and 6 extra wide pockets to hold over 12 magazines. With solid oak sides and a laminate top, these tables are able to withstand years of abuse. Black granite look tops are scratch resistant and very easy to clean. Slide brackets make assembly quick and easy with the use of no tools.

FABRIC COMBINATIONS

- Many seating items may be selected with multiple upholstery covers on a single unit, such as vinyl seat and fabric back or two vinyl chairs and two fabric chairs in a sofa. Wooden Mallet will accommodate these special requests as outlined below.
- Indicate clearly on the original order the combination of desired fabrics as follows:
 - Chair Model
 - Finish
 - Seat Fabric/Back Fabric
 - For multi-chairs/sofas indicate by seat number (left to right when facing).
- Pricing is \$5 per seat added to the highest grade fabric included on the piece.
- Combinations are available on standard and designer fabrics at standard production times. Combinations using COM fabrics may require additional production time and must follow the COM order process.

COM (Customer's Own Material)

- COM service is also available and is priced at Standard Fabric Prices.
- See our COM specifications sheet for specific information.
- COM yardage shown is for solid, non-directional fabric and vinyl. Print and directional patterns may require additional yardage.
- Please submit a one-third yard sample with product specifications for approval prior to submitting COM orders.

FIRE CODES

- All Wooden Mallet seating meets the requirements of the CAL 117 fire code.

SEATING WEIGHT CAPACITY

- All standard Wooden Mallet seating has a weight capacity of 400 pounds per seat.
- All bariatric seating has a weight capacity of 800 pounds per seat.

WOOD FINISHES

- Wooden Mallet's state-of-the-art triple coat finishing process is available in four colors – Black, Light Oak, Medium Oak and Mahogany.
- Wooden Mallet finishes all product components before assembly to assure an even finish in all joints, and hidden spaces.
- Light finishes contain little or no pigmentation, thus the natural shading of the wood will show through.
- Due to differences in their nature, solid wood and veneers may not always match exactly.
- Wood Finish Chips are available at no cost upon request.
- A limited number of items are also available unfinished for custom stain applications.

DIMENSIONS

- Product and shipping container dimensions are available on our website at woodenmallet.com.

LASER ENGRAVING

- Wooden Mallet offers laser engraving of a wide variety of fonts and graphic symbols on the following products. Custom logos are available at an additional charge – Contact us for information.
- Single engravable panel:
 - BR24-4
 - MR24-4
 - MR36-7
 - MR48-1
 - MR7-FS
 - MR10-FS
 - PCH15-1
 - PCH24-3
 - PCH36-5
 - CH15-1
 - CH14-1
 - CHD15-1
 - CH14-2
 - CH14-3
 - CH14-5
 - CH14-10
 - CH10-FS
 - OCHS15-1
 - OCHO20-1
 - XR-1
- Two engravable panels:
 - MR24-8
 - MR48-20
 - MR36-14

 - MR20-FS
- Only the bottom panels are engravable on multi-pocket items.
 - Indicate Right/Left panel when facing rack.
- Engraving Upcharges
 - \$5.00/per panel – Graphic OR Text
 - \$8.00/per panel – Graphic AND Text
 - Graphic AND Text Engraving Options
 - Graphic Left/Text Right
 - Text Left/Graphic Right
 - Text Top/Graphic Bottom
 - Graphic Top/Text Bottom
- Proofs must be requested and are provided at no cost.
- Standard production time is 48 hours on engraved items. Delayed response on proofs will affect shipment time.

WOODEN MALLET ONE YEAR LIMITED WARRANTY

Wooden Mallet warrants that its products shall be free from defects in original material and workmanship for a period of one year from the original shipment date. This warranty shall not apply to normal wear and tear or in the event products are damaged as a result of misuse, abuse, vandalism, neglect, accident, improper application, and modification or repair by persons not authorized by Wooden Mallet. Wooden Mallet will, at its discretion, repair or replace any defects. Any repair or replacement must be approved in advance by the factory before any action is taken. There are no implied warranties of fitness or merchantability, and there are no other express warranties beyond the warranties expressed here.
